Anti-aging Moisturizer Day Cream

DESCRIPTION:

This nourishing anti-aging cream and daily moisturizer contains active ingredients and natural antioxidants to hydrate, protect, and rejuvenate the skin while reducing the visible signs of aging. It nourishes, soothes, whitens and rejuvenates the skin and acts against wrinkles, fine lines and skin damages. Rich in natural extracts in combination with Vitamin E it works to target wrinkles, fine lines and skin sagging, promoting a smoother, firmer, and more youthful complexion. It is also extremely hydrating. Suitable for all skin types.

Active Ingredient	Almond Oil, Avocado Oil, Schizandra Chinensis Fruit Extract, Vitamin E, Eugenol, Geraniol
Dosage Form	Cream
Indication	Anti-aging & Moisturizing
Flavor	-
Package	50 ml

Anti-aging Moisturizer Day Cream BENEFITS:

- Eliminates and /or Reduces the appearance of Wrinkles and Fine Lines
- Hydrates and Nourishes the Skin
- Promotes a smoother, firmer Skin
- Helps to repair sun damage and free radicals
- Promotes skin Rejuvenation
- Rich in Natural Antioxidants

Ingredients benefits

Almond Oil:

It contains vitamins, minerals, and antioxidants that promote healthy, glowing skin. It is rich in fatty acids, such as oleic and linoleic acid, which help to moisturize and nourish the skin. It helps prevent dryness and keeps the skin soft and smooth. Packed with antioxidants like vitamin E, which help fight free radicals that cause premature aging. Regular use can reduce the appearance of fine lines and wrinkles, promoting a more youthful complexion. It also supports skin elasticity, has brightening effects, soothes inflammation and redness and promotes skin healing from scars, burns and minor cuts.

Avocado Oil:

Avocado oil has nearly 20 vitamins and minerals making it essential for skin health. High in vitamins A, D, and E, it works as an antioxidant that helps combat free radicals, preventing premature aging, and promoting skin healing. It tightens the skin, reducing wrinkles and fine lines while also preventing sagging. Vitamin D supports the production of new skin cells, and Vitamin A can help with the renewal of damaged skin. It's antioxidant properties help to repair sun damages and free radical activity, both of which can prevent premature aging. It is also an excellent natural moisturizer, as it is packed with healthy fats, particularly oleic acid. It helps to hydrate the skin and lock in moisture. Needless to say, that the high content of oleic acid and beta-sitosterol, helps speed up the healing of minor cuts, bruises, and other skin wounds by supporting the skin's natural repair process.

Schizandra Chinensis Fruit Extract:

This fruit extract is a potent antioxidant that helps neutralize free radicals, protecting the skin from oxidative stress and slowing down the aging process. This can help to reduce wrinkles, fine lines, and other signs of aging. Also due to its antioxidant, anti-inflammatory, and skin-rejuvenating properties, it can promote clearer, more youthful skin and support hydration and collagen production which helps to improve skin elasticity and firmness. This prevents sagging and the loss of youthful appearance over time. In addition, the extract is known for its ability to brighten the complexion and promote an even skin tone. The antioxidants and vitamins in Schizandra can help reduce hyperpigmentation, age spots, and sun damage, reducing redness, swelling and irritation and promote a healthier appearance and more radiant and youthful look. Schisandra is also believed to enhance moisture retention in the skin to keep the skin hydrated and improve its overall texture.

Vitamin E:

Vitamin E is a powerful antioxidant that offers a range of benefits for the skin. It is well known for its ability to hydrate and nourish the skin. It helps to lock in moisture and prevent dryness. Vitamin E also plays a role in repairing damaged skin cells and promoting the healing of wounds, scars, and minor burns. It can help reduce the appearance of scars over time by aiding in the regeneration of new skin cells. As an antioxidant, Vitamin E neutralizes free radicals, which are unstable molecules that can damage skin cells and accelerate the aging process. By protecting the skin from oxidative stress, Vitamin E helps prevent the formation of fine lines, wrinkles, and other signs of aging. It Soothes Inflammation and Reduces Redness while offering protection against the harmful effects of UV rays by neutralizing free radicals generated by sun exposure

Skin Repair Night Cream

DESCRIPTION:

Its active ingredients help reduce the appearance of fine lines, wrinkles, and other signs of aging. It is formulated with a rich blend of active ingredients that target skin rejuvenation, hydration, and firmness overnight.

Enhances skin repair and regeneration during the night, when the skin's natural healing process is most active. It also helps cell renewal to restore skin damages and improves skin structure. Skin is left renewed, moisturized, smoother, and more radiant. Suitable for all skin types.

Active Ingredient	Almond Oil Sodium Hyaluronate, Retinol, Vitamin E, Eugenol, Geraniol
Dosage Form	Cream
Indication	Antiaging and Skin Repair & Rejuvenation
Flavor	-
Package	50 ml

Age Reverse Serum BENEFITS:

- Eliminates and /or Reduces the appearance of Wrinkles and Fine Lines
- Hydrates and Nourishes the Skin
- Promotes a smoother, firmer Skin
- Helps to repair sun damage and free radicals
- Promotes collagen production, cell renewal and skin Rejuvenation
- Rich in Natural Antioxidants

Ingredients benefits

Almond Oil:

It contains vitamins, minerals, and antioxidants that promote healthy, glowing skin. It is rich in fatty acids, such as oleic and linoleic acid, which help to moisturize and nourish the skin. It helps prevent dryness and keeps the skin soft and smooth. Packed with antioxidants like vitamin E, which help fight free radicals that cause premature aging. Regular use can reduce the appearance of fine lines and wrinkles, promoting a more youthful complexion. It also supports skin elasticity, has brightening effects, soothes inflammation and redness and promotes skin healing from scars, burns and minor cuts.

Sodium Hyaluronate:

Sodium hyaluronate is a form of hyaluronic acid (HA). It has a low molecular weight compared to other types of HA, allowing it to easily absorb and penetrate multiple layers of skin to help retain moisture.

This ingredient can enter the deep layers of your skin. Here, it attracts moisture and reduces inflammation. When applied topically, sodium hyaluronate is excellent for reducing dryness and wrinkles. It has many benefits, including helping smooth wrinkles, reducing inflammation, and many others.

It is known for its remarkable ability to retain moisture. It plays a crucial role in keeping the skin hydrated, plump, and youthful-looking.

By keeping the skin well-hydrated, hyaluronic acid helps reduce the appearance of fine lines and wrinkles. Hydrated skin looks fuller and plumper, reducing the sagging and thinning associated with aging. Proper hydration with hyaluronic acid can improve the skin's elasticity, making it look firmer and more toned. HA is known to support the body's natural wound-healing process, making it effective in soothing irritated or damaged skin. Regular use of HA can help improve the overall texture of the skin, making it feel smoother and look more even.

In a 2014 study, formulas with sodium hyaluronate decreased wrinkle depth and improved elasticity. According to the study, low molecular weight HA promotes the production of beta-defensin 2 (DEF β 2,) a compound that promotes tissue healing. It also controls the activity of inflammatory cells. Sodium Hhyaluronate can help your skin look youthful and supple.

Ingredients benefits

Retinol:

Retinol is a powerful ingredient commonly used in skincare for its anti-aging and skin rejuvenating benefits. It is a form of vitamin A, which is known to accelerate skin cell turnover, stimulate collagen production, and improve the appearance of skin texture. Retinol increases skin cell production (proliferation). It helps unclog pores. Retinol also exfoliates your skin and increases collagen production, which can reduce the appearance of fine lines and wrinkles, boosts firmness and elasticity which help the skin appear tighter and giving your skin a fresher, plump appearance. Collagen production, also helps brightens the skin and diminishes dark spots. Not only will dark spots be reduced, but wrinkles and sagging skin will also begin to diminish, and the effects of retinol will continue to work just as effectively over time. It can improve the overall appearance of skin and lessen the signs of aging. A 2015 clinical trial found that when women between the ages of 40 and 55 used a retinol product daily it reduced the appearance of crow's feet by 44 percent and skin discoloration by 84 percent. Another clinical trial, from 2009, reported that daily use of a retinol cream in women ages 40 to 60 over a 26-week period reduced the appearance of fine and deep wrinkles.

Vitamin E:

Vitamin E is a powerful antioxidant that offers a range of benefits for the skin.

It is well known for its ability to hydrate and nourish the skin. It helps to lock in moisture and prevent dryness. Vitamin E also plays an important role in repairing damaged skin cells and promoting the healing of wounds, scars, and minor burns. It can help reduce the appearance of scars over time by aiding in the regeneration of new skin cells. As an antioxidant, Vitamin E neutralizes free radicals, which are unstable molecules that can damage skin cells and accelerate the aging process. By protecting the skin from oxidative stress, Vitamin E helps prevent the formation of fine lines, wrinkles, and other signs of aging. It Soothes Inflammation and Reduces Redness while offering protection against the harmful effects of UV rays by neutralizing free radicals generated by sun exposure.

Age Reverse Serum

DESCRIPTION:

This anti-aging serum with Resveratrol, Hyaluronic Acid and Natural Antioxidants has potent anti-wrinkle action and prevents skin photoaging, favoring skin rejuvenation. Instantly moisturizes, nourishes, and restores the skin, noticeably reduces wrinkles, and effectively tightens the skin, making the contours of the face and neck more defined and making the skin look visibly younger over time. It slows down signs of aging, defends from free radical damage, restores your skin's pH balance and lifts and firms the skin. In combination with whitening agents restores your skin's radiance and fade discoloration. Suitable for all skin types

Active Ingredient	Linoleic Acid, Oleic Acid, Resveratrol, Camellia Sinensis Leaf Oil, Linum Usitatissimum Seed Oil, Ubiquinone, Hyaluronic Acid, Eugenol, Geraniol
Dosage Form	Cream
Indication	Sun Protection Cream
Flavor	-
Package	50 ml

Age Reverse Serum BENEFITS:

- Eliminates and /or Reduces the appearance of Wrinkles and Fine Lines
- Hydrates and Nourishes the Skin
- Promotes a smoother, firmer Skin
- Helps to repair sun damage and free radicals
- Promotes skin Rejuvenation
- Rich in Natural Antioxidants

Ingredients benefits

Linoleic Acid:

Linoleic acid is a polyunsaturated omega-6 fatty acid found in a variety of plant oils and offers several potential benefits for the skin due to its unique properties: It helps the skin retain moisture and prevents dehydration, making it useful for dry or sensitive skin.

Linoleic acid has anti-inflammatory effects, which can help reduce redness, irritation, swelling and can help prevent clogged pores and reduce acne severity

Linoleic acid is a precursor for the production of certain molecules, like prostaglandins, that have antioxidant properties.

These helps fight free radicals and protect the skin from environmental stressors such as pollution and UV radiation.

It is also involved in the synthesis of ceramides, lipids that are essential for maintaining the skin's barrier and preventing moisture loss. This helps improve the overall appearance and texture of the skin by supporting regeneration and healing.

In addition, due to its moisturizing capabilities, linoleic acid helps keep the skin hydrated, making it look soft and smooth.

Oleic Acid:

Oleic acid is a monounsaturated fatty acid found naturally in various vegetable oils, including olive oil, and avocado oil. Here's how it can benefit your skin:

Oleic acid has excellent emollient properties, meaning it helps to keep the skin hydrated by forming a barrier that prevents moisture loss and protecting the skin from environmental stressors. By keeping the skin hydrated, it helps reduce the appearance of fine lines and wrinkles.

Oleic acid helps other ingredients penetrate deeper into the skin, enhancing the efficacy of active ingredients like vitamins and antioxidants.

It also has antioxidant properties, which help fight free radicals, potentially slowing down the aging process.

Due to its anti-inflammatory properties, calms irritated or inflamed skin promoting healthy skin. In addition, it helps to speed up the healing process for wounds or skin abrasions by encouraging cell turnover and renewal.

Resveratrol:

Resveratrol is a powerful antioxidant commonly found in the skin of red grapes, berries, and some other fruits, as well as in red wine and has several benefits for skin health including anti-aging properties.

Resveratrol is known for its ability to protect the skin from oxidative stress, which is a significant contributor to the aging process.

By neutralizing free radicals, resveratrol can help reduce the appearance of fine lines, wrinkles, and age spots.

It also helps stimulate collagen production, which is vital for skin elasticity, making the skin look firmer and more youthful.

As an antioxidant, resveratrol helps protect skin cells from environmental damage caused by UV rays, pollution, and other stressors.

Ingredients benefits

It can reduce skin irritation and inflammation, which can contribute to various skin conditions such as acne and eczema. Resveratrol has been shown to help brighten the complexion and even out skin tone. It can reduce the appearance of dark spots and hyperpigmentation by preventing the formation of melanin (the pigment responsible for dark spots). Resveratrol has anti-inflammatory effects, which can help soothe irritated skin and reduce redness and puffiness. Resveratrol can enhance the skin's barrier function, helping it retain moisture and stay hydrated, which is essential for maintaining a healthy and supple complexion. The anti-inflammatory and antioxidant properties of resveratrol help prevent acne breakouts.

Camellia Sinensis Leaf Oil:

Derived from the tropical camellia flower, Camellia Oil is packed with antioxidants and fatty acids, perfect for a natural, healthy glow skin. These compounds help to neutralize free radicals, protecting skin cells from oxidative stress and premature aging. White tea (*Camellia sinensis*) has anti-inflammatory and antioxidant properties and a protective effect against wrinkles, sunburn and UV damages on the skin. Camellia Oil has been shown to offer age defence benefits that may minimise and prevent the signs of ageing. Containing oleic acid, it promotes the synthesis of collagen and elastin for youthful looking skin. It helps to moisturize, reduce inflammation, and shield the skin from environmental damage. Studies have found that camellia seed oil can lighten dark spots on the skin, leading to a radiant, even-toned glow.

Linum Usitatissimum Seed Oil:

Linum Usitatissimum Seed Oil is a skin conditioning agent that deeply hydrates the skin as well as protects it against damage. It is widely used in anti-aging formulations due to its ability to fight fine lines and wrinkles. When applied topically, it can relieve the redness and itchiness and calms the skin. It is also a powerful antioxidant which can be very beneficial to prematurely aged skin as well as mature skin. Signs of aging like fine lines, wrinkles, and sagging, can be visibly improved. It's a significant plant source of omega fatty acids, primarily an omega-3 fatty acid (linolenic acid) that's been shown to have a soothing effect on skin. These polyunsaturated fatty acids, which also include oleic, linoleic, palmitic and stearic acids, enhance skin's hydration by preventing moisture loss. The fatty acids in flaxseed oil help improve skin elasticity by supporting collagen production, which leads to firmer and more youthful skin.

Ingredients benefits

Ubiquinone:

Ubiquinone, also known as Coenzyme Q10 (CoQ10), is a powerful antioxidant that plays a crucial role in cellular energy production. Ubiquinone helps neutralize free radicals, that can cause oxidative damage to skin cells. This makes it effective in preventing the visible signs of aging, such as fine lines and wrinkles.

By protecting the skin from oxidative stress and supporting collagen production, CoQ10 helps reduce the appearance of fine lines and wrinkles, promoting smoother and more youthful-looking skin. Ubiquinone can support the skin's natural regeneration process, helping to maintain elasticity and firmness, leading to healthier and more resilient skin.

Studies suggest that CoQ10 may help reduce the effects of UV-induced skin damage, reduces sunburn and improving the skin's resistance to UV rays.

Ubiquinone can also improve skin moisture levels, preventing dryness and helping to maintain a smooth, hydrated complexion. The antioxidant and anti-inflammatory properties of CoQ10 may help reduce redness and irritation, making it beneficial for sensitive or inflamed skin.

Hyaluronic Acid:

Hyaluronic acid (HA) is a naturally occurring substance in the body that is known for its remarkable ability to retain moisture. It plays a crucial role in keeping the skin hydrated, plump, and youthful-looking. Here's how it benefits the skin:

HA can hold up to 1,000 times its weight in water, making it a powerful hydrating agent. It helps the skin retain moisture, which is essential for maintaining softness and smoothness.

By keeping the skin well-hydrated, hyaluronic acid helps reduce the appearance of fine lines and wrinkles. Hydrated skin looks fuller and plumper, reducing the sagging and thinning associated with aging. Proper hydration with hyaluronic acid can improve the skin's elasticity, making it look firmer and more toned. HA is known to support the body's natural wound-healing process, making it effective in soothing irritated or damaged skin. Regular use of HA can help improve the overall texture of the skin, making it feel smoother and look more even.

Skin Repair Eye Cream

DESCRIPTION:

It has moisturizing and antioxidant effects on skin. It nourishes soothes, whitens and rejuvenates the skin. Perfect as an anti-wrinkle and repairing cream for the skin around the eyes. Helps in the reduction of puffiness, dark circles and in the appearance of fine lines around the eyes, also known as crow's feet. Suitable for all skin types

Active Ingredient	Ruscus Aculeatus Root Extract Centella, Vitamin E, Eugenol Geraniol, Ethylhexyl Cocoate
Dosage Form	Cream
Indication	Skin Repair Under Eyes
Flavor	-
Package	50 ml

Skin Repair Eye Cream BENEFITS:

- Eliminates and /or Reduce the appearance of Wrinkles and Fine Lines
- Hydrates and Nourishes the Skin
- Stimulate Collagen Production
- Promotes a smoother, firmer Skin
- Helps to repair sun damage and free radical
- Rich in Natural Antioxidants

Ingredients benefits

Ruscus Aculeatus Root Extract:

Ruscus aculeatus, commonly known as Butcher's Broom, is a plant whose root extract is often used in skincare for its beneficial properties. The extract is primarily known for its anti-inflammatory, antioxidant, and vasoconstrictor effects, making it a popular ingredient in products aimed at improving skin appearance and health.

Here are some of the key benefits of Ruscus aculeatus root extract for the skin:

Reduces Puffiness and Dark Circles: Butcher's broom extract is well known for improving circulation and reducing fluid retention. This makes it beneficial for reducing under-eye puffiness and dark circles caused by poor blood circulation or fluid buildup.

Promotes Skin Firmness: The extract has vasoconstrictor properties, meaning it helps tighten blood vessels, which can lead to firmer, smoother skin. This is particularly useful for those seeking to maintain skin elasticity and combat sagging skin.

Anti-Inflammatory: Ruscus aculeatus has anti-inflammatory properties that help reduce skin redness, irritation, and inflammation, making it ideal for those with sensitive or inflamed skin conditions, such as rosacea or eczema.

Improves Blood Circulation: The active compounds in the root extract can help improve blood flow, promoting the delivery of oxygen and nutrients to skin cells. This can lead to a brighter, more even skin tone.

Anti-Aging Benefits: With its ability to boost circulation and reduce inflammation, Ruscus aculeatus root extract may also help reduce the appearance of fine lines and wrinkles, as it supports overall skin health and rejuvenation.

Centella:

Centella Asiatica, also known as gotu kola or cica, is a powerful herb widely used in skincare for its healing and anti-inflammatory properties. It has been a staple in traditional medicine for centuries, particularly in Asia, but in recent years, it has gained global popularity in the beauty and skincare industry. Here are some key benefits of Centella for the skin:

Promotes Healing: Centella is known for its ability to accelerate wound healing and tissue repair. It stimulates the production of collagen, which is essential for skin regeneration. This makes it a popular ingredient in products designed to help with scars, stretch marks, and post-acne marks.

Anti-inflammatory Effects: The plant is rich in compounds like asiaticoside and madecassoside, which have potent anti-inflammatory properties. This can help calm irritated, inflamed skin conditions such as eczema, psoriasis, or acne, reducing redness and swelling.

Boosts Collagen Production: Centella increases collagen synthesis, which helps improve the skin's elasticity and firmness. This makes it a great ingredient for anti-aging products, helping to reduce the appearance of fine lines and wrinkles.

Hydrating and Moisturizing: Centella helps retain moisture in the skin by strengthening the skin's barrier, which is crucial for hydration. It also supports the skin's natural ability to repair itself and prevent dehydration, giving the skin a healthy, dewy appearance.

Ingredients benefits

Antioxidant Protection: Centella is rich in antioxidants that help protect the skin from environmental damage, including pollution and UV rays, which contribute to premature aging and skin damage. This makes it effective in maintaining overall skin health.

Gentle for Sensitive Skin: Centella is known for being gentle, making it an excellent option for people with sensitive skin. It has a soothing effect that can help balance and calm reactive or easily irritated skin.

Vitamin E:

Vitamin E is a powerful antioxidant that offers a range of benefits for the skin, making it a popular ingredient in skincare products. Here are some of the key benefits and uses of Vitamin E for the skin:

Moisturizes the Skin: Vitamin E is well known for its ability to hydrate and nourish the skin. It helps to lock in moisture and prevent dryness, making it particularly useful for people with dry or sensitive skin.

Repairs and Heals Skin: Vitamin E plays a role in repairing damaged skin cells and promoting the healing of wounds, scars, and minor burns. It can help reduce the appearance of scars over time by aiding in the regeneration of new skin cells.

Fights Free Radicals and Prevents Premature Aging

As an antioxidant, Vitamin E neutralizes free radicals, which are unstable molecules that can damage skin cells and accelerate the aging process. By protecting the skin from oxidative stress, Vitamin E helps prevent the formation of fine lines, wrinkles, and other signs of aging.

Soothes Inflammation and Reduces Redness: Vitamin E has anti-inflammatory properties that can help calm irritated or inflamed skin. It can be especially helpful for conditions like eczema, psoriasis, or sunburn.

Protects Against UV Damage: While Vitamin E cannot replace sunscreen, it can offer some protection against the harmful effects of UV rays by neutralizing free radicals generated by sun exposure. When combined with Vitamin C, Vitamin E can provide enhanced protection against UV damage.

Improves Skin Tone and Texture: Vitamin E can help even out skin tone and texture by lightening dark spots, hyperpigmentation, or age spots, making the skin look more radiant and uniform.

Sunscreen Cream

SPF 50 UVA & UVB Protection

DESCRIPTION:

A revolutionary blend crafted to provide broad spectrum SPF 30 UVA & UVB protection. Creates a powerful shield against harmful UV rays. These cutting-edge sun protectors work synergistically to block both UVA and UVB radiation, safeguarding your skin from sun damage. Enriched with Vitamin E our cream nourishes and hydrates your skin while defending it against environmental stressors. Vitamin E, a potent antioxidant, helps to neutralize free radicals, promoting skin health and resilience.

Active Ingredient	Ethylhexyl Salicylate Octocrylene Butyl Sulfonic Acid Aloe Barbadensis
Dosage Form	Cream
Indication	Sun Protection Cream
Flavor	-
Package	50 ml

Sunscreen Cream BENEFITS:

- Helps protect your skin from harmful UV radiation, which can lead to skin cancer, premature aging, and other skin issues
- Blocks ultraviolet (UV) radiation from being absorbed by the skin. UV radiation damages the skin and can lead to sunburns and skin cancer.
- Consistent use can minimize the visible signs of aging and promote a smoother, more radiant complexion over time
- Preserves the skin's youthful appearance by preventing UV-induced damage to collagen and elastin fibers, which are essential for maintaining skin elasticity and firmness
- Prevents Sunburns, Reduces Skin Cancer Risk, and Improves Skin Texture.
- Shields the skin and protects from both UVA & UVB radiation

Ingredients benefits

Ethylhexyl Salicylate:

It is an organic, oil-soluble sun filter that absorbs UV-B radiation helping to protect the skin from the harmful effects of sun exposure. It provides broad-spectrum UV protection, hydrated feel, smoothness and even-toned skin, without the need for additional coverage with BB cream.

Here's an overview of its benefits and characteristics in sun protection:

UVB Protection: Ethylhexyl Salicylate is effective in absorbing UVB rays, which are responsible for causing sunburn. By filtering out these harmful rays, it helps prevent skin damage, premature aging, and the risk of skin cancer associated with overexposure to UVB radiation.

Water Resistance: In many sunscreen products, Ethylhexyl Salicylate is included because of its ability to maintain efficacy even in water, though its water resistance may not be as strong as some other UV filters.

Broad-Spectrum Protection:

Octocrylene Butyl:

An oil-soluble chemical sunscreen agent that protects skin in the UVB. Primarily protects skin from the UVB range of sunlight while providing a small amount of UVA protection.

Sulfonic Acid:

A chemical sunscreen agent that gives strong protection in the UVB. It will keep your skin clear and smooth, helping to avoid common skin ailments like acne, dryness, and itchiness.

Aloe Barbadensis:

Protects the skin and body from dryness and the dangers of sun exposure. Aloe barbadensis, commonly known as aloe vera, is widely used for its skin-soothing properties, especially after sun exposure.

Benefits of Aloe Vera for Sun Protection:

Soothing and Hydrating: Aloe vera is known for its ability to soothe irritated or inflamed skin. It helps to rehydrate and cool the skin after sunburn, providing comfort.

Anti-inflammatory: Aloe vera contains compounds that have anti-inflammatory properties, which can help reduce redness and swelling caused by overexposure to the sun.

Antioxidant Properties: Aloe vera contains antioxidants such as vitamins C and E, which can help combat free radicals generated by UV exposure. This may help reduce some of the skin damage caused by the sun.

Whitening Cream

Face Neck & Decolte

DESCRIPTION:

A unique gentle whitening face cream, which offers protection against sunlight. Its active ingredients prevent melanin formation more effectively than other well-known skin-lightening agents. It helps fade or lighten hyperpigmentation the appearance of discoloration and improve uneven skin tone. It also has an anti-inflammatory effect helping to prevent skin damages caused by UVB and collagen break down.

The end result is a more youthful and Radianskin skin.

Active Ingredient	Almond Oil Hydroxy phenoxy Propionic Acid Schizandra Chinensis Fruit Extract Vitamin E Eugenol Geraniol
Dosage Form	Cream
Indication	Skin Whitening for Face and Neck
Flavor	-
Package	50 ml

Whitening Cream BENEFITS:

- Eliminates and /or Reduces the appearance of Spots
- Eliminates and /or Reduces Freckles & Pigmentation
- Evens Skin Tone
- Lightens Skin
- Provides Skin Radiance

Ingredients benefits

Almond Oil:

Almond oil helps in lightening dark spots, dark circles, hyperpigmentation which may be caused due to stress, ageing or environmental factors and makes your skin appear lighter and brighter. Improves skin tone and texture.

Hydroxy phenoxy Propionic Acid:

A non-toxic derivative of hydroquinone that helps fade the appearance of discoloration and improves uneven skin tone. Exhibits a photoprotective and anti-inflammatory effect on epidermal keratinocytes helping to prevent skin damages caused by UVB irradiation.

Schizandra Chinensis Fruit:

This key active ingredient offers multiple properties: It has photoprotective qualities, which aid in reducing UV-induced oxidative stress and collagen breakdown maintaining skin health.

It soothes sensitive skin, helps to limit signs of radiation and also reduces skin redness.

Vitamin E:

Vitamin E may contribute to a more even skin tone by reducing hyperpigmentation and dark spots. Regular use can help brighten the skin and create a more uniform complexion. Boosts Collagen Production: Vitamin E is involved in collagen synthesis, a protein that provides structure to the skin.

Eugenol:

Helps in removing or lightening the acne marks which helps in clearing out the skin.

Geraniol:

Protects skin from environmental damages

Whitening Cream

Hands & Body

DESCRIPTION:

A unique gentle whitening hand and body cream, which offers protection against sunlight. Its active ingredients prevent melanin formation more effectively than other well-known skin-lightening agents. It helps fade or lighten visible sun damages, age spots, freckles or scars. It also has an anti-inflammatory effect helping to prevent skin damages caused by UVB.

Active Ingredient	Almond Oil Hydroxy phenoxy Propionic Acid Vitamin E Eugenol Geraniol
Dosage Form	Cream
Indication	Skin Whitening for Hands & Body
Flavor	-
Package	50 ml

Whitening Cream BENEFITS:

- Eliminates and /or Reduces the appearance of Spots
- Eliminates and /or Reduces Freckles & Pigmentation
- Evens Skin Tone
- Lightens Skin
- Provides Skin Radiance

Ingredients benefits

Almond Oil:

Almond oil helps in lightening dark spots, dark circles, hyperpigmentation which may be caused due to stress, ageing or environmental factors and makes your skin appear lighter and brighter. Improves skin tone and texture.

Hydroxy phenoxy Propionic Acid:

A non-toxic derivative of hydroquinone that helps fade the appearance of discoloration and improves uneven skin tone. Exhibits a photoprotective and anti-inflammatory effect on epidermal keratinocytes helping to prevent skin damages caused by UVB irradiation.

Vitamin E:

Vitamin E may contribute to a more even skin tone by reducing hyperpigmentation and dark spots. Regular use can help brighten the skin and create a more uniform complexion. Boosts Collagen Production: Vitamin E is involved in collagen synthesis, a protein that provides structure to the skin.

Eugenol:

Helps in removing or lightening the acne marks which helps in clearing out the skin.

Geraniol:

Protects skin from environmental damages.

AcneActive Cream

DESCRIPTION:

Our unique formula combines FDA approved OTC ingredients, such as Salicylic Acid, and other advanced ingredients to address and reverse causes of acne. This FAST and highly effective cream unplugs pores, removes excess oil, kills bacteria and eliminates inflammation. At the same time, cleans, hydrates and rejuvenates the skin to prevent new breakouts. In fact, after continues use the skin becomes cleaner, softer, less oily and free of imperfections.

Active Ingredient	Salicylic Acid, Palmitoyl Tripeptide-8, Salix Alba Bark Extract Syringa Vulgaris Extract Cinnamomum Zeylanicum Bark Extract Niacinamide
Dosage Form	Cream
Indication	fades blemishes, unplug spores, cleans & rejuvenates the skin
Flavor	-
Package	50 ml

Acne Active Cream BENEFITS:

- Unplugs Pores and Removes Excess Oil
- Kills bacteria and Eliminates Inflammation
- Eliminates and /or Reduce the appearance of Acne Scars
- Hydrates and Nourishes the Skin
- Prevent new Breakouts

Ingredients benefits

Salicylic Acid: It's well-known for reducing acne by exfoliating the skin and keeping pores clear.

It's the most effective and most well-known acne-fighting ingredient.

It works particularly well for blackheads, blemishes and whiteheads, because its exfoliating action can effectively target these surface level blemishes, revealing a fresh layer of skin underneath. It is an oil-soluble ingredient, which means that it can penetrate the skin layers and, dissolve sebum and oil, dissolve the dead skin cells clogging your pores and exfoliate the skin.

This makes it an effective treatment for acne, blackheads, and whiteheads.

Palmitoyl Tripeptide-8: Peptides and Niacinamide have remarkable benefits to tackle skin problems and maintain healthy looking skin. Most recently, it has been evaluated that niacinamide and peptides make up an ideal pair and are a great duo to get rid of acne scars and acne marks.

Salix Alba Bark Extract: Salix Alba Bark Extract's role in acne treatments is notable, as it helps unclog pores and reduce inflammation. Ideal for keeping pores clear of congestion, the rejuvenating, anti-blemish active also plays an important role in keeping acne bacteria at bay. That's because it accelerates cell renewal, helping the skin shed dead cells that may otherwise clog pores. The extract soothes redness caused by impurities, blackheads and pimples. It stimulates the skin's metabolism and promotes an even complexion. Willow bark smoothes the pores and gently removes dead skin cells (keratolytic effect)

Syringa Vulgaris (Lilac) Extract: It helps to soothe and calm the skin, reducing redness and irritation. Additionally, it has potential antimicrobial properties, which can be beneficial for acne-prone skin. Lilac extract helps reduce skin inflammation. Microbes are capable of overstimulating the sebaceous glands, causing acne and skin irritations. The powerful antimicrobial effect of CO2 Lilac extract helps to reduce the bacteria that cause local inflammation and infection.

Can be paired with niacinamide for enhanced soothing effects, or with salicylic acid for acne treatment

Lilac has natural antibacterial and antifungal properties to not only keep your skin clean but also actively aid in the healing process of inflammation or acne scarring caused by inflammatory lesions.

Cinnamomum Zeylanicum Bark Extract: It has potent antimicrobial and antioxidant properties. It prevents bacterial and fungal growth on the surface of the skin while also protecting it from environmental stressors responsible for skin aging.

Niacinamide: Niacinamide is an anti-inflammatory that works to reduce the swelling and redness associated with acne. It also works to regulate the amount of acne-causing oil being produced by the glands in your skin. Niacinamide helps to regulate sebum production, keeping it in check and preventing clogged pores. **Anti-Inflammatory Properties:** Acne is often accompanied by redness and inflammation. Niacinamide's anti-inflammatory properties can help soothe irritated skin and reduce the redness associated with acne. It is widely used to combat inflammatory acne, with proven clinical effectiveness.

Anti-Dandruff Shampoo

For Dry, Flaky Scalp

DESCRIPTION:

Its active ingredients help to remove dead skin cells on the scalp, promote hair growth, prevent itching on the scalp, reduce dandruff and scalp conditions. Act as a great conditioner and leaves your hair smooth and shiny. It contributes to cell turnover, promoting healthy cell growth and shiny hair.

Active Ingredient	Aloe Barbadensis Leaf Juice Colloidal Silver Lavandula Latifolia Rosmarinus Officinalis Cocamidopropyl Braine
Dosage Form	Liquid
Indication	Anti-Dandruff
Flavor	-
Package	250 ml

Anti-aging Moisturizer Day Cream BENEFITS:

- Helps Eliminate and /or Reduce Dandruff
- Promotes Healthy Hair Follicles
- Promotes healthy Hair
- Promotes Hair Growth and Preventing Hair Loss
- Reduces Dry, Flaky Scalp and Cleans and Moisturizes the Scalp

Ingredients benefits

Aloe Barbadensis Leaf Juice:

It has many active ingredients and minerals that can help strengthen your hair. It has fatty acids and amino acids and is rich in vitamins A, B12, C, and E. These play an important role in healthy hair follicles. It also moisturizes the scalp and helps prevent dryness and flakiness. Other benefits include:

Anti-inflammatory: Reduces itching and irritation caused by dandruff. **Antifungal properties:** Helps combat fungi such as *Malassezia*, which is often associated with dandruff.

Colloidal Silver:

SOOTHES acting as an effective anti-inflammatory that restores skin regeneration on sensitive scalps. It also tackles conditions like the itch, flakes, and skin irritation that result from seborrheic eczema and dry scalp as well as dandruff

Lavandula Latifolia:

This essential oil benefits scalp health, and hair health. Multiple studies have shown lavender as an essential oil in a mixture of other oils to support hair growth. Other benefits include: **Antifungal properties:** Lavender oil can help reduce the growth of fungi on the scalp, which is a common cause of dandruff. **Soothing and calming:** Its anti-inflammatory effects help reduce itching and irritation associated with dandruff.

Improved circulation: Lavender oil can promote blood circulation to the scalp, which may help with overall scalp health.

Rosmarinus Officinalis:

Promotes hair growth successfully. Research suggests that this essential oil may protect against hair loss, particularly when related to male or female pattern baldness. Rosemary oil can stimulate the hair follicles, promoting hair growth and preventing hair loss. Other benefits include:

Antimicrobial Effects: Rosemary has natural antibacterial and antifungal properties, which can help reduce scalp infections or imbalances that contribute to dandruff. **Stimulating Circulation:** The herb can stimulate blood flow to the scalp, promoting healthy hair growth and helping to balance oil production, which can reduce dandruff caused by dryness or excess oil.

Scalp Soothing: Rosemary can help soothe irritation and inflammation on the scalp, which is often associated with dandruff.

Cocamidopropyl Braine:

It has effective gentle cleansing, moisturizing, and conditioning. It nourishes and supports hair follicles, promoting hair growth and thickness.
